Platform Statement

The purpose of the LSU is to advocate for students' rights and to organize various events and activities for students on a democratic, co-operative basis within which students can communicate, exchange information and share experiences and ideas. My goal at the LSU is to establish and facilitate a stronger relationship between the student body. By increasing the accessibility of resources encompassing student development and continuing to cultivate a culture of involvement, we will engage students on all levels and create a more collective student body.
