

Name: Daniel Kennedy

Position: Aboriginal Students' Representative

Profile Statement:

Hello Langara! I'm an aspiring BSc UBC transfer student, but have many courses to complete here before I'm ready to go. I lead a simple life spent mostly studying, but also playing video games, exercising, and socializing whenever possible. My father's ancestors lived in North America for centuries, and my mother's for millennia; I have a deep love of the customs and culture of both Canada and my Aboriginal nation, the Nlaka'pamux.

Platform Statement:

As Aboriginal Students' Representative it would be an honor and privilege to act as a liason not only between Langara's First Nations' community and our Student Union Council, but for all my fellow students and these two groups as well. I have a keen interest in raising awareness for what our union does for us, and increasing participation from its members. As Aboriginal Students' Representative one of my duties would be to stand on the Diversity and Inclusion Committee, which I find to be an exciting opportunity to reach out to students of all backgrounds and cultures at our school.

I am always interested in meeting my fellow students here at Langara, and consider myself highly approachable. If elected, I promise to be an accessible council member to voice opinions and concerns to.
