

Name: Shubham Taneja

Position: General Representative

My name is Shubham Taneja and I'm an international student currently enrolled in Diploma in Computer Studies. I am an international student who came to Canada in 2016. I volunteer both on and off campus. I work in a management role in the restaurant business. It has helped me gain leadership and communication skills. I like reading, playing sports, and listening to music.

I am contending for the role of general representative at the Langara Students' Union. I think I'm a right candidate for this position because I have the skills needed alongside good academic standing. I have participated on several occasions with the LSU such as volunteering to bring awareness to students about the U-Pass referendum and helping to organise various events. In terms of duties, I would like to raise some general issues. First, LSU offers many medical services to the students but there is a huge number of students which aren't even aware of that properly. So, I want to highlight this point and aware students by organising events and improve its service so that the students can get maximum benefits. Other issues such as the lack of sports here as there aren't any many sports clubs. But there are many students who want to have sports in the college and can make their career in sports. Therefore, I would like to promote extracurricular activities. I love helping others and I understand individuals' problems, but I won't tell to vote for me, but I will tell to use your vote and choose your candidate wisely. Thank you very much.
