

**Manvir Singh**

**Vice President Internal**

Profile Statement:

I am an energetic, ambitious second-year Health Sciences student at Langara. I would like to inform that within this time period I have gone through many ups and downs and know most of the problems faced by students. Being an international student I have good command in 3 languages which is my strong point. My friends and instructors describe me as focused and a hardworking team player.

Platform Statement:

After spending more than a year in this Campus, I know most of the problems faced by students and would like to help them in all aspects. I respect to the best of my abilities to work and do all the duties of the Vice President Internal. My main objective is to help students to overcome all the obstacle's which I faced. My prime motive is to promote the benefits provided to the students by LSU as most of them are paying but do not know benefits. (E.g. Medical plains etc.). Second thing for which I would like to work is the Registration process of our college as every time most of us do not get the required courses and unwillingly have to change their program.
